

Nimriel L. Sigua

INFORMATION TECHNOLOGY

PROFILE SUMMARY

I am an Information Technology graduate with a specialization in web development and hands-on experience in building dynamic websites, mobile applications, and end-to-end systems. I have developed web applications using modern frameworks and tools such as Next.js, React-Bootstrap, Tailwind CSS, and CSS, and I have built cross-platform mobile apps using Flutter, Dart, and Firebase. On the backend, I'm proficient in PHP, JavaScript, Python, C# (.NET), and MySQL, enabling me to create robust and scalable systems. I also have foundational knowledge in network and system troubleshooting, allowing me to approach development with a well-rounded technical perspective. I'm eager to apply my skills and creativity to real-world challenges and contribute meaningfully to innovative, impactful projects.

CAPSTONE PROJECT

JUNE 2023 - MARCH 2024

WEB | JAVASCRIPT | MYSQL | Php | HTML | CSS | Tailwind

Collaborated with a team to conceptualize, design, and implement a comprehensive health services monitoring system for both workers and expectant patients. Ensured user-friendliness, responsiveness, and consistent performance. The system is used by medical personnel and workers at Barangay Kauswagan Health Center Main.

- Ensure user-friendliness, responsiveness, and consistent performance.
- Used by the medical personnel and workers of Barangay Kauswagan Health Center Main

EXPERIENCE

REMOTASKS | APRIL 2024 - MAY 2025

I worked at Remotasks for a year, and during that time, I learned a lot about Image Annotation and LiDAR Annotation. I also developed the ability to quickly adapt to new projects.

CLIMBS Life and General Insurance Cooperative

| December 9, 2024 - MARCH 19, 2025

I worked at CLIMBS Life and General Insurance Cooperative as a Data Entry intern. However, my role involved more than just data entry I also troubleshooted my own computer issues and updated the CIIMS on my computer
